

# High-Intensity-Discharge (HID) Light Bar

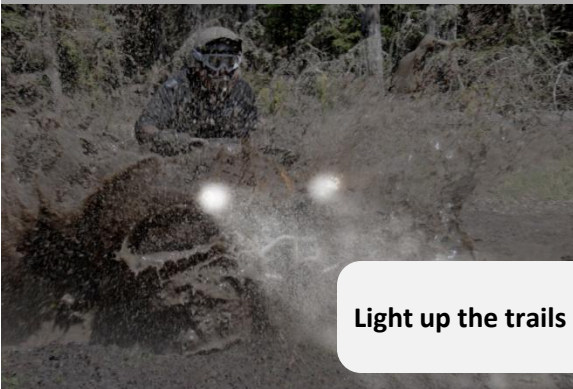

## Recreational Products

**Turn the night  
into day.**

When the fun outlasts the sun, rely on the Ibis Tek lightbar to provide excellent visibility around your vehicle. The improved forward and side visibility will light up the landscape.

Based on High Intensity Discharge (HID) lighting technology, our solution doubles forward visibility as compared to traditional halogen lighting solutions.

**Light up the trails**

A reputation built on responding quickly to customer needs with quality products is something we are proud of and will continue to focus on throughout our operations.

## HID BENEFITS

- **Improved light output** compared to halogen and incandescent light sources
- **Longer service life** lasting 8-10 times longer than halogen bulbs
- **Brighter, whiter light** that is easier on the eye

Description	Length	HID Bulbs	Weight	Voltage	Current Draw
24" Light Bar	24in	2 HID	9lbs	12 VDC	5 A

### About Us

Ibis Tek, LLC is a veteran-owned small business that designs and manufactures a range of products for military and commercial applications. Quick response and continuous product development and improvement have been the cornerstone of our success.

We design, manufacture and test specialized products for military and security customers through our Military Products, Commercial Products and Robotics Solutions teams.
